

## Mentoring as part of a coach certification system

---

The purpose of this study was to examine the mentoring process of two pairs of coaches within the context of a competitive alpine ski club. The report is divided into three parts: the first part focus on the findings, based on both interviews and on-hill observations of the actual mentoring relationships and the ways in which they were formed and executed; the second part is dedicated to the mentor evaluator training and specifics of that program; and the third part focus on recommendations for both Alpine Ski and the Coaching Association of Canada.

Original report written by: Cloutier, R. & Werthner, P. (2007).
